Place: Surat

Yours Sincerely,

Prince Beladiya - 196120316004

Darshak Kakadiya - 196120316026

Rihil Sanghani - 196120316064

ACKNOWLEDGEMENT

The success and final outcome of this project required a lot of guidance and assistance from many people and we are extremely privileged to have got this all along the completion of our project. All that we have done is only due to such supervision and assistance and we would not forget to thank them.

We heartily thank our internal project guide, **Mr. Papesh K Padhare (Lecturer in I.T. Department)**, for his guidance and suggestions during this project work. We would not forget to remember **Mr. J. R. Mahida** for his encouragement and more over for his timely support and guidance till the completion of our project work. The project would not have been successfully completed without continuous support, motivation extended by our colleagues and friends who were always with us whenever we needed.

We are thankful to and fortunate enough to get constant encouragement, support and guidance from all Teaching staffs of **I.T. Department** which helped us in successfully completing our project work.

Last but not least, thanks to **Dr. S & S. S. Ghandhy College of Engineering & Technology** for providing us the platform to represent the project.

Yours Sincerely,

Prince Beladiya - 196120316004

Darshak Kakadiya - 196120316026

Rihil Sanghani - 196120316064

Abstract

- The Book My Table is a web application, Which provides an interface to book tables at the restaurant online and also see the reviews and ratings of the restaurants. So you don't have to wait in queue for your turn at the restaurant. You can sort and filter restaurants as per your requirements and the time slot can be chosen as per your choice and also you can pay the bill online.
- The Book My Table system provides a facility for two types of users. One is for the restaurant owner and the other one is for the customer who wants to eat by reserving a table online. Here the restaurant owner has to provide all details, about his restaurant to register his restaurant in this system and the customer can just simply book the table. When admin approve the restaurant then and then the restaurant will be live on the website..
- The Book My Table is the web application that is developed in the MERN stack development and here react and node.js make the web application modern and simple. And express and mongo DB make the website faster. It is modern technology and it is used to save time.
